Overview Map . . .

There are 26 sections to the Buckeye Trail, each named for a town or feature within the section, and each with its own unique experiences. As you read the descriptions, you will come to realize the tremendous variety and history that hiking Ohio offers. We strongly urge you to obtain a detailed map from the Buckeye Trail Association for the section (or sections) you wish to hike. This map shows the approximate route of the Buckeye Trail and the various sections of the trail. For more information, go to www.buckeyetrail.org/overview.php. Then on that page, choose the section name from the list in the *LEFT* column for information on a particular sect of the BT. Choosing the section name from the *RIGHT* column will give you both the description and a "View Map" option for a more detailed map of the section.

Section maps may be ordered from BTA's web page
